

“We were impressed...”

“My wife, Rose and I interviewed three home builders and decided to go with Trigon Homes. **We were impressed** with Walter and Nicole Cheatle. They are friendly yet professional people, and easy with which to work. Walt and Nicole were open to our input and suggestions. They wanted to know exactly what we wanted in building our dream home.

Everything was explained up front - pricing, when construction could begin, and a time table for each stage of construction. From beginning to end Walt and Nicole have been very attentive and flexible. Project manager Jim Snoderly has been very helpful and paid great attention to detail like it was his own home. ~ Jim made sure everything was done right. **It’s been a real pleasure to work with the people at Trigon Homes and I highly recommend them.”**

~ Henry Howard

“Throughout the building process, there was a constant flow of communication, updates and feedback which enabled us to be a part of the building process.”

~ Henry and Janet Berberich

At Trigon Homes, we build one-story and two-story homes where you want to live.... on your land or on one of our homesites.

“Anyone considering building a home in the Culpeper area would do well to select Trigon Homes as their builder.

What a grand and glorious feeling to arrive and find our new home completed as promised and move-in ready, displaying extraordinary workmanship, with many added quality touches we had not expected.”

~ Dave and Cathy Olson

About Trigon

Trigon Homes was founded with the unique objective of making semi-custom homes available to all buyers. They took the time to listen to the individual needs of their customers and were enthusiastic about making small changes to their standard builder's plans that would suit and reflect their buyer's personal lifestyle and preferences. By filling the void between custom and track building, Trigon was able to secure its place in the future of home building in the Culpeper area.

Today Trigon's reputation is the result of our quality construction, products, employees and suppliers as well as the individuality each customer brings to the building process. We enjoy working with our customers to create their dream home. While we have many standard house plans, we have never built the same home twice. Every customer has different idea and individual priorities, and there is nothing more rewarding than seeing our customers delighted with a home they helped create.

Trigon is proud of its past and present and we are eager to start the future with your home.

Featuring

- Building one-story and two-story homes
- Build on your land, choose from our home sites, or we'll help you locate the right land for your new home
- Trigon will customize any floorplan to fit your specific needs
- Many exceptional features are included as standard in all of our homes
- ENERGY STAR® Certification included in every home we build

"The interior she [Nicole] designed really met my expectations of what my house should look like... The home was finished on time and on budget with no dramas!"

~ Rick Fall

ENERGY STAR®

ENERGY STAR® is Included in Our Home Price

- Benefits of an ENERGY STAR Home
- Lower utility bills
- Lower maintenance
- Higher resale value
- Environmental protection
- Greater comfort and better performance
- Whole house is certified ENERGY STAR
- Third party verification

In 2007, Trigon was proud to begin providing ENERGY STAR Certification with each new home. This is offered as a standard feature in every home we build, since it's in the best interest of our customers, our community and our world we saw no other option but to make green house construction accessible to everyone.
